Intrusion Detection

No wires.
No worries.

Simon *XT* home security platform

Why Simon *XT*?

Reliable protection.

Safety...

Will my loved ones be warned if things go wrong?

- Trusted life safety and property protection from GE
- Threat detection, with intrusion, motion, heat, smoke, and carbon monoxide sensors available
- 24/7 central station monitoring via phone line or optional wireless GSM connection

Security...

Is my family and home adequately protected?

- Intrusion detection and premises monitoring you can trust
- Instant hands-free audio communication with response personnel during alarm events
- Sub-disarm feature provides extra protection for sensitive areas such as gun lockers and jewelry boxes

- Call-for-assistance buttons on control pad and keyfob
- Easy to arm for either interior or perimeter detection, or both
- Wireless and fully supervised activity sensors
- Property protection with water and freeze sensors

Peace of mind...

Who's home, and when did they get there?

- Real-time monitoring allows you to view household activity online
- Notification by phone, e-mail, or text message when an off-normal event occurs
- Find out who disarmed or armed the system and at what time
- Receive automatic notification if your kids' passcode is not entered before a set time
- Receive instant notification if your liquor cabinet or medicine chest is opened

Independence...

Can my mother continue to live on her own?

- Wireless call-for-assistance devices keep help within reach at all times
- Hands-free audio communication with response personnel during critical events
- Receive notification by phone, e-mail, or text message when an off-normal event occurs
- Receive notification daily when activity is first detected or if there has been no activity for a specified length of time during predefined hours

Confidence...

Did I forget something before I left home?

- Communicate with Simon *XT* by phone or internet
- Remotely arm or disarm Simon *XT* or specific sensors
- Monitor household activity in real time
- Keep tabs on vacation properties
- Receive voice, e-mail, or text message reports based on rules you compose

Telephone notification and control is a standard Simon XT feature. Internet connectivity, real time activity monitoring, e-mail, and text messaging capability require GSM reporting and a subscription to Alarm.com, which is not available in some areas.

A complete family of detectors and sensors provide 24/7 protection

Innovative wireless technology.

Simon *XT* is supported by a complete family of wireless sensors and accessories. More than 40 can reside on a single Simon *XT* platform.

Simon *XT* is a full-featured home security platform that's installed in minutes yet delivers years of dependable protection for you and your family. Simon *XT* employs advanced wireless technology, so installation doesn't involve the mess and expense of running wires to detectors and sensors.

Easy operation...

- Voice prompts in plain, easily-understood language
- Large backlit buttons and LCD display
- Simple menu-driven settings

Advanced communications...

- 24/7 central station monitoring
- Two-way voice communication during alarms
- System control via remote telephone
- Messaging to programmed telephone numbers

Optional GSM connectivity...

- Cut phone line doesn't compromise the system
- Supports internet-based control and monitoring
- Supports e-mail and text messaging

Whether your home was built yesterday or a century ago, thanks to Simon *XT* you can now enjoy the peace of mind that comes with knowing that your home and your family is safe and secure.

Find out how you can bring the peace of mind and convenience of wireless security to your home. Speak with your GE Security representative today!

Door/window sensors

Freeze sensors

Water sensors

Carbon monoxide sensors

Glass guard sensors

Motion sensors

Shock sensors

Rate-of-rise heat detectors

Smoke sensors

Wireless panic buttons
